### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 9 line 3 "in particular" has been deleted.

The term "in particular" has been deleted as it is superfluous and does not change the scope of the claim.

2. The following is an examiner's statement of reasons for allowance:

Instant claim 1 discloses the two drive mechanisms which act on the wedge working against each other to generate the actuation force. This limitation defines over the prior art of record. Montavlo III (U. S. Patent no. 4,457,408) teaches a similar brake system but only discloses one drive mechanism. Hartsock (U. S. Patent no. 6,752,247) teaches 2 drive motors but only one acts on the wedge.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
